## RX RESOURCES

With ValuScript, members save money on prescription medicine at over 65,000 retail pharmacies when medications are needed for maintenance, acute, or long-term needs.

Low-Cost Prescriptions may be filled at a local retail pharmacy, or through mail order.

High-cost maintenance, brand, or specialty medications may be accessed through a Prescription Search service. An Advocate will assist with locating up to five (5) providers that offer high-cost medications at discounted, out-of-pocket costs to members. The medications\* may be available through manufacturer coupons, prescription discounts, mail-in order rebates, and local discount types of savings.

## VIRTUAL CARE RESOURCES

### Acute Care Consultations

Save time and money with immediate access to licensed medical care for you and your family - anytime, anywhere!

#### Why do so many people choose telemedicine?

- Easy to sign in to see a doctor through your secure telehealth patient portal
- 24 hours, 7 days a week
- Secure access to immediate care physician-created treatment plans
- No more waiting rooms

### Behavioral Health Consultations

24/7 Virtual Care brings confidential access from master-level clinicians directly to you by virtual behavioral health consultations. Clinicians specialize in helping with emotional issues or concerns.

Services are available by a phone call, smartphone app, or webcam when you need care for acute conditions. **Up to 3 consultations per individual per year from a master-level clinician.**

## PATIENT CONCIERGE PARTNER point health

With your Atlas Health Plan, members have access to an amazing, simple-to-use mobile app. This app provides multiple services that will help support bringing healthcare back into the hands of the patient.

### Healthcare Navigation

- Search for the hospitals, prescriptions, surgery centers, and medical facilities for non-emergency procedures that fit your needs.
- Compare estimated costs of outpatient procedures.
- Transfer - Patient advocates will help get medical records transferred to new providers.
- Schedule - Patient advocates assist with scheduling appointments on behalf of the members.

### Medical Bill Negotiation

- Schedule - Connects member with an expert medical bill negotiator.
- Review - Negotiator reviews bills for discrepancies and inaccuracies.
- Negotiate - Negotiators are armed with data, a history of successful negotiations, and savvy.
- Communicate - Members are kept informed throughout the process.
